Agenda

- About IOP Publishing
- Expanding the way we deliver content
- A global presence
- E-books and our partners

About IOP Publishing

- More than 70 Journals and Magazines spanning the Physical Sciences

- Launched award-winning IOP ebooks program in 2013

- Partnerships with a range of other societies and organisations including: American Astronomical Society, CERN, German Physical Society and the Japan Society of Applied Physics.

Subject Coverage

Spanning **all areas of Physics** and **related subject areas**

Applied

Atomic, Molecular & Chemical

Condensed Matter

Fluids & Plasmas

Mathematical

Multidisciplinary

Nuclear

Particles & Fields

Astronomy and Astrophysics

Biophysics

Geophysics

Materials Science

Medical Physics

Nanotechnology

Mathematics

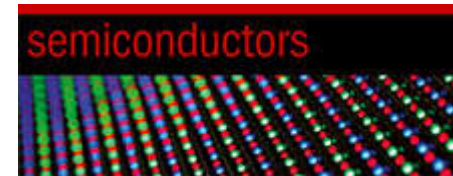

Dedicated Subject Collections

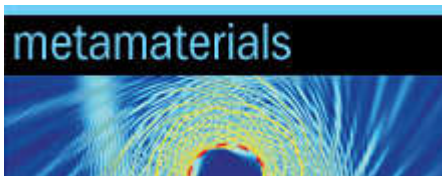

iopscience.org/graphene

iopscience.org/biomedical-engineering

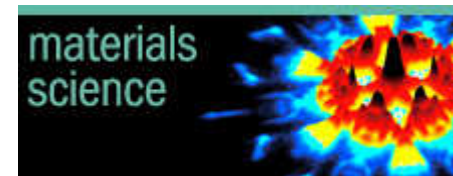

iopscience.org/semiconductors

iopscience.org/metamaterials

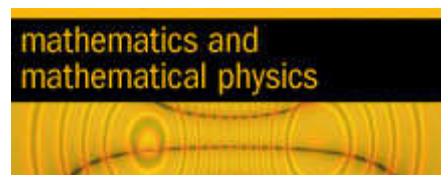

iopscience.org/quantum-information

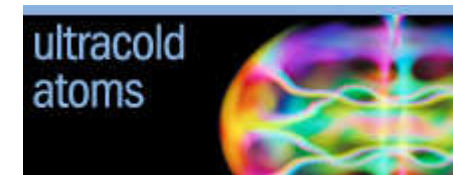

iopscience.org/materials-science

iopscience.org/plasma-physics

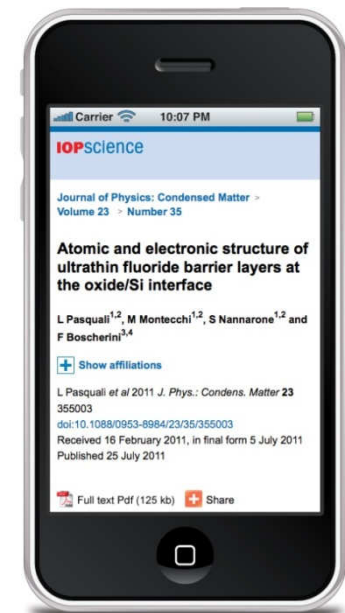

iopscience.org/page/maths-and-physics

iopscience.org/ultracold-atoms

Mobile apps

- **Browse** the latest papers in a particular journal or subject area on IOPscience express and physicsworld.com newsflash
- **Search** content published over the last two years. All previous searches are saved for quick selection.
- **Explore** citation and abstracts, or view the full text of the article in PDF format.
- **Download** up to 20 articles per month to your iPhone, iPod Touch or iPad.
- **E-mail** article details to yourself or to a colleague for easy access from a desktop computer.

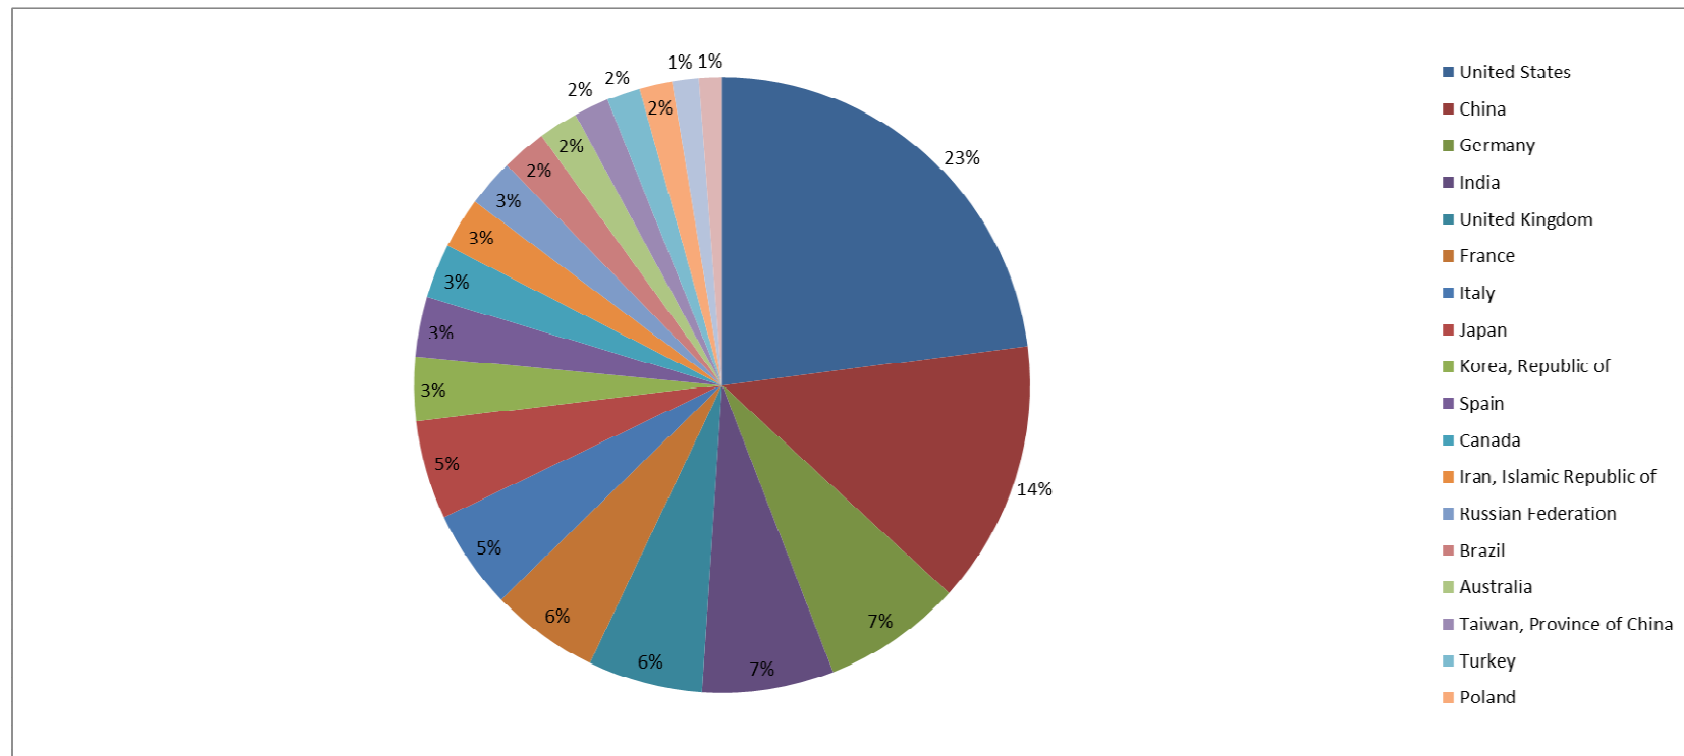

A global presence

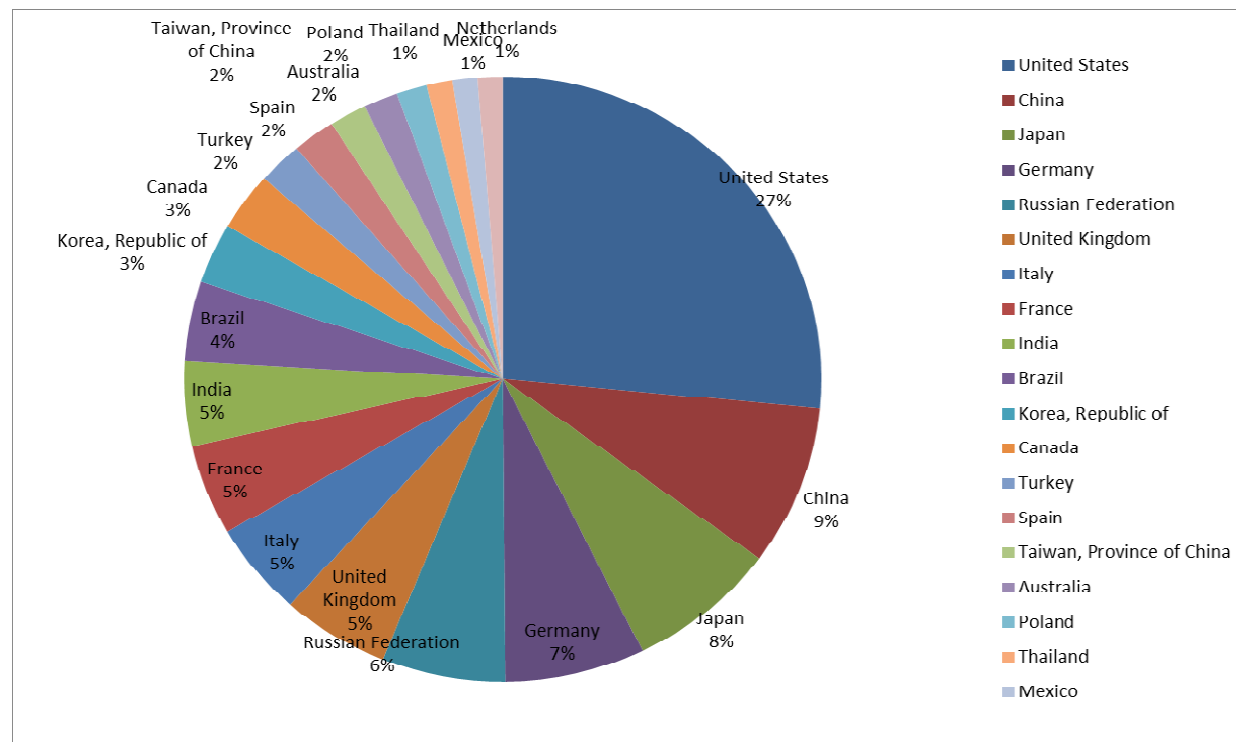

IOP Publishing's content is authored and read by individuals across the globe with more than 30,000 journal articles published in 2014 alone.

- Authors from 144 countries (Source: Artemis)
- Subscribing institutions in 136 countries (Source: Prospect Universe)
- Articles downloaded and read in more than 145 countries since 2003 (Source: Prospect Universe)
- Articles in our journals were downloaded approximately 29,461,412 times in 2014. (Excluding ebooks, source: Prospect Universe)

Top 20 highest submitting countries since 2010

Article downloads by country since 2011

Our ebooks history

- In 2013 we launched our ebooks programme
- The IOP ebooks programme initially comprises two complementary collections: IOP Expanding Physics and IOP Concise Physics
- Since our launce we have commissioned 95 ebooks
- In 2014 we won the ALPSP SILVER Award for innovation in publishing 2014 as of our ebooks platform

Enhanced reader experience with IOP ebooks:

- IOP ebooks offer an enhanced reading experience by making all of the content available in HTML, PDF and ePub3 formats. Find out more about ePub3 here: <http://iopscience.iop.org/books/ePub3>
- We publish a variety of ebooks in physics and related areas such as mathematical physics, medical physics, astronomy, materials science, nanoscience, electronic materials and instrumentation.
- A one-time purchase, with no platform or administrative fees
- · Published in HTML, PDF and EPUB formats
- · No DRM—users can print and save, and there are no limits on concurrent users
- · Integrated on the IOPscience platform, alongside IOP journal content
- · Whole ebook download

Our commitment to the community

- **We are committed to:**
 - Maintaining the quality of research
 - Upholding rigorous, high-quality peer review
 - Guaranteeing archiving and long term preservation
 - Conserving the integrity of scientific record
 - Making scientific research accessible to everyone who needs it.
- **Being a true partner to the research and librarian communities.**

THANK YOU!

Lukas.Piasecki@iop.org
